# REPORT OF LIBRARIAN.

Fellow townsman :

I herewith submit my report for the year ending Feb 15, 1900 Unless you have closely observed the progress of our public library you can hardly realize its great importance. It is well known that our library contains many valuable works, and it is only by giving a fare share of time to them that our young people can obtain that knowledge which is required to give strength and support to all.

I feel we should be as liberal in our appropriation as the financial condition of our town will warrant.

Books.—Number of books in the library, not including public documents, 1162.

Accessions, by purchase, 207.

By gifts, including public documents, 16

Circulation Number of persons who have taken books, 374.

Receipts. Amount received from fines and cards, $4 99

Classification Class of books most in use, fiction, 2nd books for young people. 3d travels, 4th history, 5th biography.

The books should be catalogued.

The library will be open for the delivery of books on Tuesday and Saturday afternoons and evenings, (except legal holidays) from 2 to 5 o'clock and from 7 to 9 o'clock.

# SCHOOL REPORT.

To the citizens of Barnstead the following report is most respectfully submitted.

There have been eleven schools, of twenty eight weeks each, maintained during the past year. There were but two scholars in the Pitman district so it was thought best to send them to Shackford's Corner and Mr. S J. Berry was employed to take them to and from school at an expense of fifty-nine dollars.

The average daily attendance has been very good considering the number of schools interrupted by measles which has been very prevalent of late, still this is too far below the whole number enrolled.

At the risk of tiring those who keep their children at home, for no good reason, we again, as so often before, ask that those boys and girls be sent more regularly in the future Nearly all parents spare no pains to have their children reap the greatest benefit from the advantages offered them and the remainder can be at no better business than making any reasonable sacrifice that their children may never look back to these days and lament over opportunities wasted.

Of the eighteen different teachers employed, sixteen have had wide experience, fifteen having taught in town before. All selected on their merits and as a result there has not been a poor school for the year.

In nearly all districts it has for years been difficult to get the fires built in the morning, owing to the small number of boys of suitable age to be intrusted with such duties, consequently someone in each district was employed to look after

this matter, at an expense of twenty-five cents per week. The arrangement gives great satisfaction.

The Tasker and the Shackford's Corner school houses have been shingled and the shed in the Bickford district has been completely made over and is as good as new.

For the greater part of our boys and girls get all the school privileges they ever enjoy from our common schools and it is clearly our duty to these children, our town and state to put forth every effort to have these schools as long as is best and as valuable as we can make them.

B F DOW,
ENOS GEORGE,
MYRA A GEORGE,
